

a home built with heart

This is much more than a house. It's a home created with deep care, purpose and love.

Recently completed, this purpose-built residence was thoughtfully designed and brought to life by devoted parents with one clear goal: to give their son the very best quality of life. Every detail has been carefully considered to create a space that is not only highly functional, but also welcoming from the moment you walk in.

This state-of-the-art Fully Accessible SDA property has been designed to enhance the living experience for people with complex care needs.

Featuring three bedrooms with shared bathrooms, it supports independence within a supportive environment.

The home includes generous shared living and kitchen spaces that foster connection and community, alongside practical features such as an on-site laundry and outdoor space to relax and unwind. Nearby shops and amenities are just a short drive away.

Combining thoughtful design with accessibility and comfort, this home offers a place where residents can truly feel at home.

multicap tasmania

We are a proudly Tasmanian disability services provider with a long history of supporting individuals, families and communities across the state.

As a registered NDIS provider, our local support teams deliver personalised services that help people build independence, develop life skills, connect with their communities and live life their way.
